

MOHAMMED ALSIDDIG

Riyadh, Saudi Arabia
(+966) 505397588 mohd_daf_elradi@hotmail.com

Profile

Results-driven Senior Technical Consultant with 10+ years of proven expertise in Networks, Systems, and IT Security, delivering resilient infrastructure and cloud solutions for enterprise environments. Adept at architecting scalable systems, driving automation, and embedding cybersecurity into operations to ensure performance and compliance. Skilled in leading cross-functional teams, translating complex technical challenges into business outcomes, and optimizing multi-cloud ecosystems. Recognized for strategic thinking, hands-on expertise, and a commitment to continuous improvement that enhances organizational efficiency and innovation.

Distinguished by impactful scientific publications, widely accessed and cited across the research community (Check **Publications** section).

Areas of Expertise

- **OS (Operating Systems):** Linux, Windows Server.
- **Cloud Computing:** GCP (Google Cloud Platform), AWS (Amazon Web Services), Microsoft Azure.
- **DevSecOps:** Docker, Kubernetes, Git, Jenkins, SonarQube, Trivy.
- **Database:** MS SQL, MySQL, PostgreSQL, Couchbase, NoSQL.
- **Automation:** Ansible
- **Scripting:** PowerShell, Bash.
- **Networking and System Administration:** Firewall, Proxy, Load Balancer, EDR and SIEM (Security Information and Event Management).
- **Virtualization technologies:** VMware ESXi and Hyper-V.
- **Monitoring tools:** ELK Stack (Elasticsearch, Logstash and Kibana), Prometheus & Grafana.
- **Web Development:** WordPress, Moodle (Learning Management System).
- **Data Analytics:** Power BI.

Education

2018	M.Sc.	Communication Engineering	University of Science & Technology
2014	B.Sc.	Communication Systems Engineering	University of Science & Technology

Work Experience

Senior Technical Consultant (Customer Success Engineer) | RealTyme | Geneva,
Switzerland (**NCGR Project**) | Nov 2023 - Present

- Deploy and manage secure communication platform utilized by 5000 users across 90+ entities on Linux servers, ensuring system stability, scalability, and uninterrupted operations.
- Lead day-to-day service delivery and incident resolution to minimize downtime and address vulnerabilities in deployed applications.
- Automate installation, updates, and configuration workflows using Ansible and Docker, improving deployment efficiency and reducing manual effort.
- Provide L3 technical support and ensure consistent adherence to defined SLAs, maintaining high service reliability.
- Analyze client requirements, design tailored architecture solutions, and recommend improvements aligned with business and technical objectives.
- Collaborate closely with executives, business teams, and cross-functional stakeholders to drive product adoption, capture feedback, and shape the customer success roadmap.

Information Technology Specialist | QSS | Riyadh, Saudi Arabia | June 2021 – Oct 2023

- Designed and administered enterprise-grade data networks and IT infrastructure, delivering secure, high-performance environments for mission-critical operations.
- Implemented end-to-end monitoring and analytics via ELK Stack (Elasticsearch, Logstash, Kibana) to enhance visibility, preempt incidents, and improve uptime across all systems.
- Deployed full Web Application ecosystems (ESXi, Virtual Machines, Databases, Web Servers, Load Balancers, WAFs), customizing configurations to meet business and client-specific requirements.
- Designed and deployed PoC environments for an in-house Cybersecurity Platform used by SOC, IR, and Threat Intelligence teams, implementing both on-prem and cloud (AWS/GCP) architectures to ensure scalability and operational efficiency.
- Shaped comprehensive infrastructure reports and optimization strategies covering performance tuning, capacity management, and resource utilization, ensuring sustainable system growth.

IT Director | Al-Yarmouk College | Khartoum, Sudan | July 2019 – March 2021

- Directed IT operations overseeing 5+ team members, driving technology modernization initiatives that increased service availability by 35% and reduced incident resolution time by 25%.
- Designed and implemented training programs on emerging technologies and Cybersecurity Awareness, resulting in a 40% improvement in staff technical competency and compliance posture.
- Established robust quality assurance and procurement standards, cutting IT procurement costs by 20% through strategic vendor negotiations and lifecycle management.
- Managed enterprise-wide system upgrades, migrations, and infrastructure refreshes, ensuring zero business disruption across all mission-critical environments.
- Coordinated with external vendors and service providers to maintain high service availability and verify fulfillment of contractual obligations.

Lecturer (Part-time) | Al-Yarmouk College | Khartoum, Sudan | November 2016 – March 2021

- Prepared and delivered structured lectures and lab sessions, emphasizing applied learning and real-world IT practices.
- Conducted both classroom and LMS-based (Learning Management System) lectures and examinations for flexible learning.
- Led tutorial sessions, seminars, and presentations to enhance student engagement and understanding.
- Developed and supervised examinations, ensuring accurate evaluation and fair assessment of student progress.

Network Administrator | Al-Yarmouk College | Khartoum, Sudan | September 2015 – June 2019

- Designed, implemented, and maintained campus-wide network infrastructure, supported by full documentation and diagrams.
- Managed Windows Server roles (AD, DNS, DHCP, File, Group Policy, WSUS, WDS, Print, Remote Assistance) for seamless operations.
- Applied and maintained network security policies and filters, improving availability and reducing traffic bottlenecks by 25%.
- Designed and maintained the college website, ensuring consistent updates and optimal functionality.

Certifications and Professional Trainings

- **Ethical Hacking Essentials EHE** | EC-Council
- **Network Defense Essentials (NDE)** | EC-Council

- **CompTIA Security+ (SY0-601)** | Cybrary.
- **CompTIA Network+ (N10-007)** | Cybrary.
- **CCNA** (Cisco Certified Network Associate) | Network Plus Training Center.
- **MCSE** Microsoft Certified Systems Engineer | Self-study.
- **IELTS (Academic)**

Projects Conducted

- **BMI Calculator app** using Flutter
- **yarmoukcollege.edu.sd**
- **thomascarton.com**

Languages

- **Arabic** Mother Language
- **English** Proficient and fluent
- **French** Beginner
